## PROFILE

A detail-oriented graduate with a Diploma in Information Communication Technology (ICT), offering a strong foundation in software development, computer networks, database management, and IT systems support. Demonstrates solid analytical and problem-solving abilities, with the capacity to apply technical knowledge in practical environments. Known for reliability, adaptability, and a strong commitment to continuous learning and professional growth. Works effectively both independently and within teams to support organizational goals while maintaining high standards of quality and efficiency.

## CAREER OBJECTIVE

To build a successful career in the field of Information Communication Technology (ICT) by applying my knowledge and practical skills in a dynamic and growth-oriented organization. I aim to contribute to efficient system operations, problem-solving, and innovative technology solutions while continuously enhancing my professional skills and adapting to emerging technologies.

## WORK EXPERIENCE

### ST PATRICKS SECONDARY SCHOOL MOSOCHO INDUSTRIAL ATTACHMENT

05/2024 – 07/2024

#### 1. Computer Diagnostics and Troubleshooting

- Diagnosed and resolved both hardware and software issues on desktop computers and laptops
- Performed system checks to identify faults such as slow performance, boot errors, and hardware failures
- Repaired basic hardware components including RAM, storage devices, and peripheral connections
- Installed and configured operating systems and essential drivers

#### 2. Student Training Support

- Assisted in training students on basic computer packages such as Microsoft Word, Excel, and PowerPoint
- Guided learners on practical ICT tasks and computer projects
- Provided one-on-one support to students struggling with computer applications
- Helped prepare learning materials and demonstrations during practical sessions

#### 3. Software Installation and Updates

- Installed and updated software applications to ensure smooth system performance
- Updated antivirus programs and performed regular system maintenance
- Ensured all computers were running up-to-date and licensed software
- Assisted in backing up and restoring system data when required

#### 4. Typesetting and Printing Services

- Performed document formatting, editing, and professional typesetting for students and staff
- Assisted in printing academic materials such as assignments, reports, and project work
- Ensured proper layout, spacing, and formatting standards before printing.

## TECHNICAL SKILLS

- Web development skills
- Basic Networking
- Computer Diagnosis and troubleshooting
- Quickbooks
- Microsoft office Packages
- Internet and email configuration
- Data entry skills

## SOFT SKILLS

- Strong teamwork and interpersonal skills, with the ability to collaborate effectively in diverse work environments
- Effective communication skills, both written and verbal
- Ability to work independently as well as under supervision
- Good time management and organizational skills
- Attention to detail and commitment to quality work

## LANGUAGES

- English-Fluent
- Swahili-Fluent
- Kisii-Fluent

## HOBBIES

- Coding personal projects
- Watching IT tutorials
- Swimming

## REFEREES

**Stephen Chacha**, *Commanding Officer,*  
NYS -Mavoloni Field Unit  
+254 712 984976

**Madam Catherine Ngari**,  
*HOD Computing and Informatics, JNNP*  
+254 720990882

## PRACTICAL EXPERIENCE/PROJECTS

• **Modern Dynasty Hospital Management System**  
Developed a web-based hospital management system to streamline patient record management, appointment scheduling, and overall healthcare operations. The system enhances efficiency through real-time data handling and a user-friendly interface. Technologies used: HTML, CSS, JavaScript, Firebase

[View Project](#)

• **Energy Equity AI System**

Developed an intelligent system aimed at evaluating household energy affordability and promoting equitable access to energy resources. The platform analyzes user data to generate insights and support informed decision-making on energy usage and cost management. Technologies used: HTML, CSS, PHP, Firebase, JavaScript
